Whist Drive Winners

The local C.C.C. club held a very successful whist drive on Friday night last, in Miller's hall, a goodly number of patrons being present. Refreshments were served at the close of play, and all agreed that a very delightful evening had been spent. The prize winners were:

Ladies -- Miss Barbara Mundt 1, Miss Edith Oatway 2d.

Gents -- Val J. Kulak 1st, E. Danbauer 2d.

Leader-LaRose

At the home of Rev H.G. and Mrs. Rice, Edmonton South, Wed. Oct. 30, Marion (daughter of Mr. and Mrs. J. A. LaRose, Telfordville) was united in marriage to Pervis (son of Mr. and Mrs. B. Leader, of Stony Plain district). The charming bride was crowned in white silk, with long bridal veil. The Wedding March was played by Miss Ruth Leader. The ceremony was performed by Rev. Rice. The bridal party motored to the King Edward hotel, where a wedding dinner was served in the rose room.

A New Community Hall

Good progress is being made by the staff of carpenters on the work of building the new Community hall on the Alce Zeiler farm, on Meridian road, six miles north of Stony. The hall has been built by the members of Muir Lake Community Club, of which Mr. Charles Poerner is president. It is expected the building operations will be far enough advanced to allow the dance to take place which is being arranged for Friday night, the 29th. A Community meeting has been called for tomorrow evening.

TOWN OF STONY PLAIN.

The attention of Council has been called to the deposit of ashes and rubbish on certain streets and lanes in Stony Plain.

According to the Bylaw governing this matter, ashes may be deposited loose upon the ground, only when 40 feet away from any building, but this does not mean that the streets and lanes may be used to obtain the necessary distance. Failing in this requirement, ashes should be placed in a metal container on person's own property and emptied as needed.

Complaints have come even from farmers using our streets and lanes, that ashes left over winter in such places create a danger by frightening horses, especially after dark. Should an accident occur, the town might find a damage suit on its hands.

The last meeting of Council directed the Sec.-Treas. to notify offending parties of the necessity of keeping streets and lanes clear.

We all wish to maintain our reputation as a clean and tidy town, and ask our Council to enforce the Bylaws. The cooperation of the citizens would be appreciated by that Council in their endeavor to do the duty assigned them.

THE MAYOR

Lost, Team of Geldings, 1 black and 1 blue roan, about 7 and 8 years; weight 1300 to 1400 lbs; no brand. Alfred Lux, box 134 Stony Plain.

'Fresh from the gardens'

This Better Age

The work of a clever cartoonist has for some time past been syndicated to newspapers in America, under the general title "So This Is Progress," wherein he depicts by way of contrast conditions of fifty or more years ago with those of today, as, for example, a party of present-day tourists in a high powered motor car speeding at sixty miles an hour along a highway on which at every vantage point unsightly billboards invite you to chew this gum, smoke that cigar, or use such and such a soap. In contrast he presents the restlessness and beauty of a tramp through the woods, and by brooks, and rivers rambling through the countryside. The work of this cartoonist lends one to wonder sometimes whether the vaunted progress of this age of frenzied speed, amazing machinery, industrialized mass production, insane speculation is, after all, an advance upon the more leisurely life and enjoyments of the last century.

Such a picture is, however, one-sided, inasmuch as while it points out drawbacks of today, it fails to visualize the great achievements and gains to humanity as a whole, and already there is an awakening public opinion to the need for the preservation of beauty and leisure, and emphasis is laid on the fact that these need not necessarily be lost in order to make advancement in other directions.

Recently another artist presented two companion pictures in a single drawing which he labelled "This Is Progress." One picture was a reproduction of the famous painting "The Doctor," presenting the family physician by the bedside of a dying child in a workman's humble cottage, intently watching the child but apparently powerless to stay the ravages of the disease which was slowly taking the life of the child before the eyes of the agonized parents. The companion picture revealed the medical scientist of today at work in his laboratory with his scientific instruments locating and studying those deadly germs and bacilli which, it is now recognized, are the cause of disease. Thus is war being waged not on disease after it claims its victim, but on the causes of disease. This is progress, and a truer, because a more lasting picture of the achievements of the twentieth century.

Despite all the noise, the killing pace, even the ugliness of this mechanized age, with its drawbacks in the merging of the individual artisan into the cogs of a huge industrial machine, and the increasing worship of the almighty dollar, the standard of living is rising higher and higher, and beauty lost in one way, is found and multiplied in countless other ways. The average workman in our cities and manufacturing towns is now better paid, better dressed, better housed, better fed, and working shorter hours under more sanitary conditions, has more time for leisure and recreation than in any previous period in the world's history. His children are enjoying advantages in education and opportunities in life he never had in his youth.

The riches of the world's best literature, formerly reserved for the favored few, are available at low cost through the modern printing press for every home. The beauties of the world's finest music are no longer reserved for the rich and the gifted, but are broadcast by radio to be captured in millions of homes, no matter how isolated they may be. In the last century the man with a horse and buggy for pleasure or business belonged to the select; today the man without a motor car is the exception, not the rule. The telephone is an instant call in the humblest home, even the pioneer settler's not shack; and the radio is in the mining prospector's cabin.

Even the toil and drudgery of the farm are disappearing with the advent of power machinery and electricity. Soon, even in this last Great West, high power transmission lines will carry electricity into the farm home to bake and cook, chop feed, operate the churn, pump water, and perform numerous other tasks. Even in advance of this, small gasoline engines now do the work on many farms. The telephone, the radio, the motor car and better roads, have already well-nigh annihilated the loneliness of farm life, while educational facilities and medical services are no longer remote.

So, notwithstanding certain drawbacks and losses, the world advances, progress is real and altogether worthwhile, life becomes richer and fuller, mankind rises higher and higher as God and nature designed that he should.

On the completion of the new Canadian National Railways hotel at Halifax, passengers will be able to leave their trains, enter the hotel and board a trans-Atlantic steamer without once having to go out from under a roof.

Japan is said to have had no written language until about 226 A.D.

In the first second of its fall, a body falls 16 feet.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Englishman Invents

New Dance Floor

Savoy Hotel, London, England, Has Only One Of Its Kind In World

A dance floor that rises up to the level of the tops of the tables—at the touch of a button—was "opened" during the dinner and supper entertainments at the Savoy Hotel, London, England. It is said to be the only floor of its kind in the world. Measuring 44 feet by 35 feet, it rises without a creak in 30 seconds by means of hydraulic power. Thousands of gallons of water from the four artesian wells below the Savoy are used.

An official of the hotel said: "The inventor is an Englishman, W. J. Huggett, and he and our chief engineer, F. C. Pay, have been working on it for six months. It has cost over \$50,000, and has been constructed between 2 a.m. and 10 a.m. so as not to interfere with our guests' comfort. This enables all guests to see the cabaret without standing.

HOUSEHOLD CARES

Fall Heavily On The Woman Who Is Run Down—Thin Blood The Trouble

To the woman who has her household to do and her family to attend to, illness is almost calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her bad aches, she may be breathless at the least exertion, she has little relief for food, and always feels tired and nervous. The trouble is poor blood—thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich, red blood which comes through the use of these pills promptly restores anemic sufferers to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Cardigan, P.E.I., who says: "I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my household work. My husband thought I would never get better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now; or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Preserve Old Fort

Changes At Churchill May Necessitate Guard On Fort Prince Of Wales

That it might prove necessary to place a guard over the ruins of the two-century-old Fort Prince of Wales at Churchill, was the statement made by Hon. Charles Dunning, Canadian Minister of Railways, on his return from a trip of inspection over the lines of the recently constructed Hudson Bay Railway to Canada's Arctic port.

Two hundred years ago, occupants of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old Fort are being marked up by new names despite the desire of the Department of the Interior to preserve the ruin as the pioneers of the north left them. "I imagine the department will put guards over the fort," Mr. Dunning said. "It is perhaps the most interesting relic left to us of early Canadian history, a history that pre-dates that of any city on the prairies or the middle United States. Churchill was Churchill and the capital of the western half of the continent from the Arctic Sea to Oregon before there was any Selkirk, or Fort Garry, or Regina. The Fort stands as a monument to the men who built it as a link with the 18th century in this country and must be preserved."

Most people believe in law and order as long as they can lay down the law and give the orders.

Iron was smelted to make hoes and sickles as far back as 1200 B.C.

Stop falling hair with Mearns' Linalment.

Ambassador Bridge

Now In Operation

Longest Suspension Bridge In World Between Canada and United States

A great new link between Canada and the United States, the Ambassador Bridge, has come into operation.

The ever-growing traffic between the two countries brings into being the longest suspension bridge in the world—the Ambassador is 1,850 feet long between the main towers. The centre span looms 152 feet above the waters of the Detroit River and at the piers is 135 feet above the water. The total length of the bridge from the terminal in Sandwich, Ontario to the terminal in Detroit is nearly two miles.

The roadway of the bridge is 47 feet wide, providing five lanes of traffic, flanked by an eight-foot sidewalk. These lanes for traffic will be used in either direction as circumstances demand. Main towers of the bridge are 365 feet in height and of steel construction.

The magnitude of the structure is indicated by the quantities of different kinds of material used. Structural steel and cable wire weight approximately 24,000 tons; concrete masonry measures 25,000 cubic feet, cement used totaled 40,000 barrels; the roadway pavement is 60,000 square yards, sidewalk 8,000 square yards. Two million rivets were driven during the progress of construction of the steel portions of the bridge.

Proposals for some direct connection across the Detroit River have been made for nearly fifty years. Work was started on the Canadian end in June, 1927, and the American end a month previous.

A Cosmopolitan College

Ontario Agricultural College, At Guelph, Has Students From

Many Climes

One of the cosmopolitan educational institutions of the world is the Ontario Agricultural College, located at Guelph, Ont. Registration for the present term includes students from Trinidad, Rhodesia, Bermuda, Mexico, South Africa, Holland, Germany, Peru, Ukraine, Japan, Norway, United States, England, Wales, Scotland, Ireland, Czechoslovakia, as well as many from Canada.

The Ontario Agricultural College has a world-wide reputation as a producer, not only of practical farmers, but of instructors in agriculture. Many O.A.C. graduates are found on the staffs of agricultural colleges in the United States.

Children's COUGHS

Mother! Give your children a few Peps tablets to suck every day. Breathing the agreeable medicinal fumes given off by Peps is like breathing invigorating pine forest air. Peps soothes the throat and delivers air tubes, strengthens the chest and keeps coughs, colds and bronchial troubles at bay. 25c. box.

PEPS

The Breathable Tablet

Records From Slot Machines

Those who enjoy hearing their voices, may do so by dropping a coin in a slot machine, which is to appear in London streets. It is operated on the phonograph principle. The voice is registered on a thin disc of red metal alloy, of secret composition, which is delivered five seconds after the speaking is finished. It can be used on a phonograph, and with any fibre needle. The record is guaranteed to be permanent.

When things do not come your way it is a sign you ought to be going after them.

Needless Pain!

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that aches. Working though they ache all over. And Aspirin would bring them immediate relief!

The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless?

Read the proven directions for checking colds, easing a sore throat; relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc.

You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

TRADE MARK REG.

International Conference To Simplify The Calendar Is Expected To Be Held Next Year

Action taken by the Assembly of the League of Nations at its recent session holds much promise that an international conference to simplify the calendar will be held next year, said George Eastman, chairman of the National Committee on Calendar Simplification, in a statement commenting upon advice he has just received from Geneva.

Mr. Eastman said that a resolution had been adopted by the Assembly which automatically placed on the agenda of the next meeting of the League Conference on Communications and Transit, probably in December, the findings of his committee, the calendar reform resolutions of the International Chamber of Commerce, the recommendations of the French and Belgium calendar committees, and resolutions adopted by various national and international bodies, all directed to the League.

The Communications and Transit Conference, Mr. Eastman said, will in effect act for the League in the matter of calling an international calendar conference and it was his belief that the accumulation of favorable recommendations "from different countries, and those of the International Chamber of Commerce could not but impress the conference that the time for international action on calendar reform is ripe."

Before this meeting is held, reports may be received also, he said, from national calendar committees in Germany, Holland, Hungary and Peru, Cuba and several other of the Latin-American countries. The conference will also have been informed of the results of the calendar referendum of the United States Chamber of Commerce, now in progress among local chambers, which calls for opinion on calendar simplification and whether there should be an international conference in which the United States should participate. Mr. Eastman felt that judging by the number of favorable expressions already given by Chambers of Commerce to his committee during its own inquiry the referendum would show approval of calendar simplification.

Camouflaged Sardines

Fish Must Be Correctly Labeled If Sold in Great Britain

The description "sardine" may be applied in Canada to certain fish caught there and it is even permissible when they are shipped to most parts of the British Empire. But if the product is sent to Britain and South Africa, the term is not allowed. This unusual information was elicited when a questioner in the British House of Commons asked the reasons for this discrimination against Canadian produce.

Hon. W. R. Smith, parliamentary secretary to the Board of Trade, replied the courts in Britain had decided the name "sardine" could not legally be applied to fish not really sardines. The produce may be sold, but "sardine" must be omitted from the wrapper. Other countries besides Canada are subject to this restriction.

On a few occasions the northern lights have been seen as far south as Mexico City.

The tongue of a seventy-foot whale has been known to yield as much as a ton of oil.

"You look in better health than when I saw you last. Where have you been?"

"In prison."—Moustique, Charleroi.

W. N. U. 1912

Winnipeg Newspaper Union

(By Anabelle Worthington)

A black crepe sash showing smart lingerie touch in corn lace collar and deep turn-back cuffs. The double circular tiers of skirt add graceful movement and width to hem, with hips slenderly fitted by wide girle caught at center-front with buckle.

The molded bodice is slightly beveled.

Style No. 2797 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust, and is the most simple dress imaginable to make.

It is very effective too in black transparent velvet self-trimmed, and will answer many daytime and informal evening occasions.

Printed rayon silk crepe in tweed pattern in dark red tones is very smart and so entirely wearable.

Canoe crepe in bottle green self-trimmed is another choice for serviceable wear.

Army blue crepe de chine with collar and cuffs in eggshell shade is choice of college girls and business women, as it presents such a neat smart appearance.

Printed transparent velvet in wine red tones and dahlia purple plaid sheer velvet are fascinating combinations.

Wool crepe, crepe Elizabeth and flat silk crepe are very fashionable fabrics that adapt themselves charmingly to this model.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department, The New Fall and Winter Fashion Magazine is 15 cents, but only 10 cents when ordered with a pattern.

Finland To Have Navy

Finland, it is understood, has started creation of her first navy. Two cruisers of 4,000 tons each and four submarines and four torpedo boats are under construction. Two of the torpedo boats are being built in England.

"What kind of a radio have you got?"

"The railroad type—whistles at every station."

ATTENDED NOTABLE FUNCTION

Major John MacGregor, V.C., M.C., D.C.M., of Powell River, B.C., was 100 miles away from a railway in a British Columbia construction camp when he heard by radio of the Prince of Wales' dinner for Victoria Cross holders. By making close connections he was able to reach London in time to attend the dinner.

New Idea In Advertising

Method Of Fire Insurance Company Is Quite Different

We have all heard the story of how Coty purposely crashed several bottles of his product to the floor in the stores handling the perfume in order to create an odor appeal for the product. A fire insurance company has gone that idea one better; it has impregnated a matting piece with the odor of burnt wood and drenched water. The copy reads: "When your home smells of burnt wood drenched with water—like the odor you get when you opened this folder—it is probably too late to attend to your fire insurance."

Dairy Cow Efficient Food Producer

Properly built stalls cut down work and bacteria.

With increasing rentals and values of farm lands, dairy farming is rapidly replacing other types of live stock farming. A dairy cow producing 8,000 pounds of milk a year furnishes 1,000 pounds of dry matter, all of which is edible and digestible. A two-year-old steer weighing between 1,200 and 1,300 pounds furnishes about 550 pounds of dry matter, not all of which can be used for food. In other words a fairly good producing dairy cow furnishes twice as much edible dry matter in one year as a good two year old steer when he is killed for meat. A cow can be kept for additional years of service, while to replace the steer, another animal must be fed for a period of two years.

The annual consumption of milk per capita has increased in Canada from 24½ gallons in 1921, to over 52 gallons in 1929. These figures refer only to those who buy their milk and include all forms of consumption.

With growing acceptance of milk as a food has come an increasing knowledge of the proper care of milk on the farm. Because odors from foods and animals in the cow stable are easily taken up by milk, injuring its flavor, they must not come in contact with the milk. Removal of the milk from the stable as soon as possible reduces the amount of dust and dirt entering it and keeps down the bacterial growth in the milk.

Bacteria increase rapidly in warm milk causing it to sour quickly. Removal of the animal heat from fresh drawn milk by lowering the temperature to that of cold well water (approximately 60 degrees Fahrenheit), greatly aids in preventing bacterial growth. A well lighted, well ventilated milk house, not too close to the stable, is also very helpful.

Cleanliness in the stable is vitally necessary. The stall platform should be just long enough for the cow to stand comfortably without room to spare; otherwise, the cow will become dirty from droppings when she lies down. The gutter should be wide and deep. A good gutter is 16 inches to 18 inches in width and 9 or 10 inches below the platform. Bedding should be clean and plentiful.

Long hair on the flanks, udders and tail above the switch of the dairy cow should be removed at regular intervals. Removing this long hair removes the clinging places of dirt which otherwise will fall into the milk pail in quantities. Keeping the hair short on these parts of the cow permits cleaning in much less time and more thoroughly. Brushing should never be neglected. It removes loose particles sticking to the body. When the hair is short, wiping the udders with a damp cloth just before milking, is an easy and important aid in securing clean milk.

It is generally recognized that most of the bacteria found in milk finds its source in dirt clinging to the cow and dropping into the milk pail during milking time. Simple precautions will practically eliminate this source of bacterial growth and dairymen and themselves well repaid for the little time necessary in taking such precautions.

Agreement Reached Between Canada And United States As To International Air Traffic

Milk In The Nations Health

More Sanitary Methods Of Production And Handling Is Desired

Of all foods used in the family life no other has such a direct relation to the nation's health as milk, and the public are quite within their rights in demanding that the old time dairyman with his careless habits and limited knowledge of sanitation should give way to the better trained, more careful producer.

These ideas are expressed as a concluding word by C. K. Johns and A. G. Lockhead, bacteriologists at the experimental farm, at Ottawa, in their new bulletin "Testing the Producer's Milk for Quality." As a means of reducing to the minimum poor qualities in milk judged from the standpoint of food value, cleanliness, healthfulness and fine flavors, health departments of cities and towns and the large milk handling companies are insisting more and more upon sanitary methods of production and handling, disease-free dairy herds and employees, properly supervised pasteurization of the milk and protection from re-contamination after pasteurization has been given. By giving careful attention to all of these points most of the large cities have almost completely eradicated milk-borne disease. In the smaller communities that are not so far advanced in milk sanitation, where properly pasteurized milk cannot be obtained, this bulletin No. 128 of the Department of Agriculture, at Ottawa, recommends the householder to pasteurize their milk in their own homes.

The Minister of National Defence announces that an agreement has been arrived at between the governments of Canada and the United States, relative to international traffic by air between the two countries.

This traffic has been regulated since June, 1921, under a provisional agreement reached then. The new agreement supersedes this and provides for its regulation in greater detail. It is reciprocal and covers the admission of civil aircraft registered in one country to the territory of the other. The issuance of pilot's licenses in both countries to nationals of the other and the acceptance of certificates of air-worthiness for aircraft exported from either country to the other. It applies to all commercial and state aircraft other than those in the military, naval, customs and police service.

Under the Canadian aircraft entering the United States must be registered and passed as airworthy by the Department of National Defence, and must bear the registration letters allotted to it by that department. In the same way aircraft of the United States entering Canada must be registered and passed as airworthy by the United States Department of Commerce, and bear their registration markings. Aircraft desiring to cross the international border must carry aircraft, engine and journey log-books and certificates of registration and air-worthiness. Their pilots must carry licenses issued to them by the Department of National Defence in Canada or the Department of Commerce in the United States.

It also provides that the taking of aerial photographs by the aircraft of one country is not permitted over the territory of the other.

Under the new agreement, aircraft and pilots licensed to carry passengers and cargo in either Canada or the United States may engage in traffic between the two countries, but must not operate commercially between points in the territory of the other state.

The new agreement becomes operative immediately and will continue in force until 60 days notice of desire to terminate it is given by either country, or until it is superseded by a further agreement between the two countries dealing with the same subject, or by enactment of legislation in either country inconsistent with the terms of the agreement.

No special permission is now required to cross the border. So long as aircraft are licensed and flown by licensed pilots they may fly from one country to the other, provided the customs and immigration requirements are fully complied with.

Measured In Miles

Sausage is measured by the mile at the dimers of the huge hydro nitrate factory at Ryken, Norway. At a banquet in honor of the general manager of the plant, 3,000 guests ate 1½ miles of sausage. Other statistics of the dinner showed the following was consumed: 2,500 quarts of beer, 1,000 bottles of liquor, 1,000 pounds of bananas, and 2,200 pounds of potatoes.

In the three prairie provinces of Canada—Manitoba, Saskatchewan, and Alberta—about 4,000 harvester-combine machines were used this year during the wheat harvest.

"On what grounds do you apply for a gun license?"

"I often go debt collecting."

"You want protection against robbers?"

"No, against the debtors."—Brunmer, Berlin.

Royal Yeast Cakes

STANDARD OF QUALITY FOR OVER 50 YEARS

MAKE BETTER HOME MADE BREAD

WORLD HAPPENINGS BRIEFLY TOLD

Russia, which led the world in wheat exports, before the war, now does not produce what it consumes.

Winston Churchill, former chancellor of the exchequer, has been elected lord rector of Edinburgh University.

Thos. Mann, widely known German novelist, whose best known work was "The Magic Mountain," has been awarded this year's Nobel prize for literature.

The Austrian government will shortly appoint a consul-general at Ottawa, Hon. P. C. Luckin, Canadian High Commissioner, was informed by the Austrian minister in London, Baron George Frankenstein.

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Pinning, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Semyon A. Shostakov, chief pilot of the Russian plane "Land of the Soviet," which flew from Moscow to New York, announced the Osvadnikov, Soviet Aviation Society, had refused to endorse his proposal to fly across the Atlantic ocean on the homeward trip.

Seized and condemned for illegal fishing in Canadian territorial waters on August 2 last, the United States fishing boat "Olympus" has been reserved for the use of the biological board of Canada, and will be stationed at Departure Bay, B.C., it is announced by H. W. Goggin, marshal in the Victoria admiralty district.

The former Kaiser from his exile at Doorn, has instituted a libel suit against the editor of a Berlin newspaper. The newspaper had said that the army was supplied exclusively with Krupp guns, greatly inferior to those of other firms, because the Kaiser was financially interested in the former Krupp works.

KEEP TRAFFIC MOVING

Puppel never had traffic problems. In the human system, as in modern cities, the great need is to keep the traffic moving. A slight obstruction may cause very serious consequences.

The road to health in the human body—the intestine—is 32 feet long. Think how easy it is for this long tube to become clogged. Think how essential it is to keep it healthy and active. You cannot afford to say "I cannot go because I have a sick headache." You cannot plead indigestion or biliousness or constipation. It simply isn't done. You cannot confess that you are a victim of self poisoning from half digested food lying in the intestine, decaying and generating poisons which bedevil the eye, blotch the skin and supply the brain. Don't put off or delay. Try what a little friendly aid will do. CARTER'S LITTLE LIVER PILLS. Red Packages all druggists 25 cents.

Gas Supply For Saskatchewan

Eagle Butte Oil Company, At Cypress Hills, May Solve Problem

The prospect of a natural gas supply for the cities of Regina and Moose Jaw and for towns and villages extending westward as far as Maple Creek, has been brought measurably closer with the announced intention of the Eagle Butte Oil Company to spud in a second well in the centre of the Cypress Hills gas field, about 200 miles west of Regina and close to the Alberta boundary line.

The development of the Cypress Hills gas field is being proceeded with in anticipation of marketing gas in Saskatchewan. According to the findings of government engineers it is believed that the Cypress Hills field offers the closest supply of gas which can be transported to this market. A pipe line from the Cypress Hills would reach the town of Maple Creek first, and then proceed to Moose Jaw and Regina, supplying all towns and cities along intervening route.

The whole problem has been carefully examined by competent engineers and has been pronounced feasible. Independent engineers who have been retained by the City of Regina, after an exhaustive examination of all possible sources of supply, pronounce the operations of the Eagle Butte Oil Company, Limited, as the most likely to result in the development of an adequate supply of gas for the Saskatchewan market.—Free Press.

For Automobile Protection

Ohio Penitentiary Inmate Patents New Safety Device
An invention by an Ohio penitentiary prisoner may make automobile theft more difficult than it is at present.

Lawton Hilemann, 22, of Akron, serving a sentence of from seven to 15 years for burglary, has filed with a patent attorney an application for a patent on his dual auto control ignition.

When the motor is stopped, it automatically locks the ignition, steering wheel and starting switch. The mechanism can be enclosed in a box six inches square and four inches high and mounted beneath the dash board.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly all the troubles which attend the stomach, indigestion, sourness, burning, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed, and hours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Articles, digestants are not needed in such cases and may do real harm. Try using safe all digestive aids and instead get from any druggist some Malted Magnesia active aid in the water right after eating. This sweetens the stomach, prevents the accumulation of excess acid and there is no sourness, gas, or flatulence. Malted Magnesia (in powder or tablet form—never liquid or milk), is harmless to the stomach, inexpensive to take and is the most potent of all magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Now 11,500 Hours

Excellent Work Accomplished By Ontario Protective Air Patrol

To protect the forests of Ontario, one of the province's most valuable assets, the Ontario Government protective air patrol has this year flown 550,000 air miles or a total of 11,500 flying hours. This is 5,600 more hours than the total in 1928, and was done without injury to a single member of the personnel engaged or to any of the passengers carried in the planes.

The forest patrol service covered the vast area of Northern Ontario, from Lake Superior to James Bay, and has many notable exploits to its credit in carrying relief to stranded expeditions and conveying injured or sick persons from outlying posts to hospitals.

The Canadian National Exhibition held at Toronto, Ontario, is now in its 51st year. The value of land and buildings connected with the exhibition is \$25,000,000.

Wedding rings were made of agate and iron in ancient Roman times.

Lemonade was invented in the seventeenth century.

Foot Sore? Use Minard's Liniment.

Chest Colds Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it cures 2 ways at once:

- (1) Direct to air passages with its heating vapors released by body heat;
- (2) Direct, like a poultice, it "draws out" the soreness.

2 ways at once

SUNDAY SCHOOL LESSON

NOVEMBER 24

THE HIGHER PATRIOTISM

Golden Text: "He made of one every nation of men to dwell on all the face of the earth."—Acts 17:26.
Lesson: The Book of Jonah.
Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

A Great Command Disobeyed and Punished, 1:1 to 2:10.—The word of Jehovah came unto Jonah, the son of Amittai, telling him that he ought to go to Nineveh, that great city, and cry against it. Nineveh, the capital of Assyria, was on the Tigris River, 600 miles from the Gulf of Persia.

"The word of Jehovah came unto Jonah." How was there a message out of the sky? As he walked, or slept, or prayed, did these words shape themselves from silence into speech? Augustine heard a voice under the fig-tree, at Milan; Joan of Arc heard voices in the forest of Domremy. We, indeed, have heard no voices. But all of us together have not compassed the boundaries of human speech. It is not we, especially in these days of wonder in which it is our privilege to live, to deny the possibility of anything. What is impossible!

"This, however, is true, that the word of the Lord which came to Jonah has come also to a great many other people besides Jonah. God is all the time speaking to men. Messages from on high have in all ages and in all places been received by men. Why? We are conscious of an urgent voice which says to us, over and over, 'You ought! You ought! It is really that we are listening to the word of God.'—George Hodges.

Jonah disobeyed the voice. "Jonah says himself the first time I know how I'll be. After I've cried myself hoarse that Nineveh is to be destroyed, they'll begin to weep, and the Almighty'll change His mind and not destroy them at all. It's aye His way folk repeat. He's of great kindness and slow to anger, but He should keep His word. He takes no thought upon me, and what a fool I make of myself, crying that folk'll be destroyed when they wina be. It seems as though the Almighty didn't ken His sin position to gang back on His word because folk commence to weep. But I'm His servant, and I ken my sin place; I'll no see Him place Himself in a wrong position, and I'll no see Him place me in one either."—study Scott's Bible Class.

Instead of obeying the voice, Jonah went in the opposite direction, the story tells us. Joppa he found a ship bound for Tarshish (the Phoenician colony on the southwest coast of Spain, then regarded as the very end of the earth), and went aboard.

God sent a violent storm; the sailors concluded that someone had offended his god, and they cast lots to discover the culprit. The lot fell upon Jonah, who acknowledged his guilt and advised them to throw him into the sea. Finding the effort to row back to land unavailing, the sailors saved to Jehovah, and then reluctantly cast Jonah overboard. The sea ceased from its raging and the sailors returned to their homes, great fear swallowed Jonah, and after three days cast him upon dry land.

Fersian Balm the creator and preserver of beautiful complexions. Tonic for the system, and a carefully stimulating. Safeguards and beautifies the most delicately-textured skins. Cools and relieves all skins flushed or irritated by weather conditions. Magical in results. A little gentle rubbing and a youthful freshness and daintiness is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect tonic requisite for the woman who cares.

To Attract Tourists
Yokohama plans an effort to compete with Shanghai for the title of "Paris of the Orient." As a first step in the scheme to attract more tourists to Japanese port city, Mayor C. Ariyohachi proposes to construct a large theatre and cabaret. Other night life attractions would be added.

Tourists are now prone to stop in Shanghai, which is famed over the world for the gaiety of its cafes and dance halls, which contribute greatly to the wealth of that city.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

New Sound Film Apparatus
Two young Norwegians have invented a new sound film apparatus which they say will cost one-fifth of that of imported machines, and equal the foreign product in every respect. A machine for the production of sound film has also been invented by them, and they are preparing to film revues.

Minard's Liniment relieves stiffness.

Farmer's tell WHY they Clip Cows

A CERTAIN farmer wanted so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart Clipping Machine he sent us the letters which made him decide the clipping machine is a good investment.

Here are some of them:
"I have been shipping to Bordent's Milk Plant regularly for 7 years and during that time I have never had a can of milk returned. I get cleaner milk and find my cows easier to keep clean so if for that alone I would say a clipping machine is a good investment."

"I always clip mine in the fall. Some half up and others that are inclined to be woolly I clip them all over, as I find they do better and much easier to keep clean, and it sure does reduce the bacteria count. I am sure we get more milk as well. I always get Score 1. I would not be without a clipping machine under any consideration."

"We have had a power clipper for years and would not do without one. It is a great help. The milk is easier to keep clean and the cows are doing better. I am sure will produce more milk."

HOW TO CLIP COWS

Measure, the principal source of bacteria, cannot collect and at milking time rub off into the pail half an ounce, undecide, flake and tail is kept clipped short all winter.

Lies seem to congregate along the spine, which explains why some farmers clip a six-inch width from tail to ears.

Farmers who have warm stables and a good water supply, usually clip their cows all over.

Buy a clipping machine and make it pay for your cow. Stewart No. 1 Clipping Machine is easy to use and anyone can do a nice job of clipping with it. Stitches, sturdy, easy-running and will last for years. At your dealer, \$15.00. Satisfaction or money refunded.

A SHORT LINE FROM WINNIPEG TO HUDSON BAY

Ottawa, Ont.—The report of the engineers of the Canadian National Railways who have been surveying a short line from Winnipeg to Hudson Bay will be strongly in favor of the extension of the line now running north between Lakes Winnipeg and Manitoba to contact with the Hudson Bay Railway.

This information was received from Montreal recently. The report is not yet completed and will not reach the hands of Hon. C. A. Dunning, Minister of Railways and Canals, for several weeks.

The engineers, it is understood, will not only favor this central line to the north because it would clip hundreds of miles off the present rail distance between Winnipeg and Churchill, but they will point out another vital factor in Winnipeg's northern railway facilities. This factor will be the desirability of providing an air line from Winnipeg to the mining fields of Northern Manitoba.

The central line could be run northward in two ways. It could proceed along the shortest possible line to connect with the Hudson Bay road, which would carry it almost due north, or it could proceed north along the narrow strip of land between Lake Winnipeg and Cedar Lake, finally to make contact with the Hudson Bay Railway about opposite the present branch lines running to Flin Flon and Sherburne. This would give a short line to the bay and also an air line to the mineral developments.

The cost of extending the central line in either direction would be approximately \$8,000,000. It must be understood in regard to this report, that the Federal Government is not committed to build such a line of railway. This inquiry was made because the Manitoba members of parliament requested Mr. Dunning to assist them in this matter. Mr. Dunning agreed, on the express condition that it be understood that the government would not be committed to make any expenditures on construction.

Message From King George

Conveyed Sympathy To Widow Of

Hon. J. A. Robb

Valley Field, Que.—The sympathy of His Majesty King George was conveyed to the widow of Hon. J. A. Robb in a message received by Lord Willingdon, Governor-General of Canada and conveyed to Mrs. Robb.

"The King much regrets to hear of the death of the finance minister of the Dominion Government and asks that you will convey the expression of His Majesty's sympathy to Mrs. Robb."

Russia's New Budget

Moscow.—Soviet Russia's budget for the coming year, details of which have been announced, shows the huge total of 11,390,000,000 roubles (about \$5,695,000,000) which is 45 per cent. more than last year, and the greatest in the history of the Soviet states. Large part of the state's revenue is expected to come from direct and indirect taxation. The sum of 345,000,000 roubles will be devoted to education, this being more than 60 per cent. above last year.

Gives Up Long Search

Seattle.—Refusing to believe that his wife, two little girls and his baby son from whom he was separated in the San Francisco earthquake, were dead, a Vancouver man has just ended his 23-year search here in despair. The story was unfolded when the modern Enoch Arden said that he had remarried after searching vainly for his wife and children along the Pacific coast.

Keeping Highways Open

Brandon, Man.—The first start for the season to keep the highways in this district open for travelling was made by the provincial authorities last week when a new snowplow was sent to clean up the road between Souris and Boissevain.

W. N. U. 1912

Proposed Alaskan Highway

Representatives Of United States Confer With Premier King At Victoria

Victoria, B.C.—Appointment of a joint committee consisting of two United States and two Canadian representatives to thoroughly inquire into the proposed highway through British Columbia and the Yukon territory to Alaska, was mooted at a conference held here between Premier Mackenzie King, Premier S. P. Tolmie, and United States representatives, including Major Malcolin Elliott, president of the Alaska roads commission, and members of the Seattle Chamber of Commerce.

The need for a thorough investigation of all angles of the project was stressed, and it was felt that owing to the size of the undertaking, an international conference was necessary.

The proposal is for British Columbia to improve the present highway between Vancouver and Hazelton, carrying it on to the Yukon Territory; for the Dominion Government to build it to the Alaskan boundary and the United States to take it from there to Fairbanks and thence to Valdez at sea level. Following the conference, Premier King intimated he would need further information before committing himself on the matter, but said he would give it his fullest consideration.

Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brookville, Ont.—A suggestion, that the present exclusion of Chinese immigration to Canada, was humiliating to Chinese national honor and that the act of 1923 should be amended to permit a small quota of Chinese immigrants to enter Canada annually or else to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club, by Li Tchuin, Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would soon see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

Leaving Diplomatic Service

U.S. Minister To Canada Has Tendered His Resignation

Washington.—William Phillips has resigned as minister to Canada. Mr. Phillips, who is one of the leading United States diplomats, plans to quit the diplomatic service probably late next month and settle with his family in New England.

President Hoover accepted the resignation with great reluctance, and sought to induce Mr. Phillips to remain in the public service. However, the minister to Canada explained that he desired to leave office after many years in order to rear his family in the United States.

Stock Judging Competition

Winnipeg, Man.—Joseph Racine, Radisson, is one of the six students, who have been chosen to represent the Manitoba Agricultural College in stock judging competitions at the Toronto Royal and Chicago, International Winter Fairs which will open respectively on November 19 and 30. Five men constitute a team. The others selected are: J. M. Bowman, Alexander, Man.; Morgan Brown, Winnipeg; John Connor, Deloraine, Man.; Walter Fraiser, Beulah, Man.; and Earl Hammonson, Wayne, Alta.

Failed To Open Safe

New York.—Eight armed men held up the officer of the day and naval policemen at the navy base in Brooklyn and after an unsuccessful attempt to open a safe containing \$86,000, escaped.

Premier Of Iraq Dead

Bagdad, Iraq.—Sir Abdul Munim, premier of Iraq, was found dead from bullet wounds recently. No explanation of the shooting has yet been made public.

Government railways of Japan now own 4,000 locomotives.

LATE MINISTER OF FINANCE

Hon. James A. Robb, Minister of Finance in the Dominion Government, who died at Toronto, following a stroke of apoplexy. Mr. Robb was 70 years of age.

British Ambassador To Russia Appointed

Sir Edmund Hovey Has Been Transferred From Mexico

London, Eng.—Parliament having approved resumption of diplomatic relations with Russia, the government is today no time in fully restoring the breach caused in 1927. The appointment of Sir Edmund Hovey as British ambassador to Russia has been announced. A Russian minister will simultaneously come to London.

Sir Edmund has been British ambassador to Mexico for the last four years. He became a diplomatic attaché in 1902, and was appointed to Stockholm in 1904. Shortly afterwards he went to Tangier, and in 1906 to Paris.

Later Sir Edmund served in the British diplomatic service in Florida, Cuba, Jamaica, and Persia.

Mexico City.—Official announcement was made today that John Edmund St. John De Bonnaire Monson has been named British ambassador to Mexico, succeeding Sir Edmund Hovey, who will become ambassador to Russia. The new ambassador has been in diplomatic service in Turkey, Japan, France, Persia and Columbia. Japan, France, Persia and Columbia.

Apple Shortage In States

Forty-Five Million Bushels Below Average Is Report

Washington, D.C.—The apple crop in the United States this year is short and the "apple a day" slogan may be suspended temporarily. Compared with that of last year, it is off 23 per cent. and 45,000,000 bushels below the average. Scab damage in the east and worm injury in the west have resulted in an inferior quality. Prices have already advanced and promise to be 25 per cent. above a year ago.

First To Respond

Geneva.—Great Britain, the first country to answer, has accepted an invitation from the League of Nations to attend a conference for the establishing of an international tariff treaty. The United States and other non-members have been invited to participate.

Drums for Highlanders

This handsome set of drums has been presented to the 48th Highlanders Regiment, of Toronto, and is the gift of Lieutenant F. M. Ross. The regiment is allied with the world-famous "Garry Gordon" and upon its flags are inscribed many battle honors, prominent among them being Ypres, Festubert, Somme 1916, Vimy Ridge, Hill 70, Amiens, Canal du Nord, etc. The regiment was organized in 1881.

The drums were made in London, England, and were shipped to this country by the Canadian Pacific Express Company on S.S. Duchess of York.

Advocates Free Trade

With Great Britain

Proposed Resolution To Be Discussed At Coming Session Of Parliament

Ottawa.—Free trade with Great Britain within five years' time is aimed at in a proposed resolution placed on the order paper of the House of Commons by W. R. Faneber, Progressive, Last Mountain. The proposal, which will be discussed at the coming session of parliament, reads: "Whereas, Great Britain has for many years been Canada's best customer for agricultural products, particularly wheat and wheat products; and,

"Whereas, the tariffs of other countries are so heavily manipulated detrimentally to the exporting of Canadian products, particularly those of agriculture; and,

"Whereas, in international trade it is imperative for any country to buy as much as possible from the country to which she sells, thereby reducing transportation costs to the minimum; and,

"Whereas, for the general good of Canada, we deem it advisable to foster trade with the Mother Country to the fullest extent, thus keeping trade within the Empire;

"Therefore, be it resolved, that in the opinion of this House that every handicap placed on the free operation of the British preference as contained in our draft schedule, be removed, and, further, that the time has come when the British preference should be progressively increased so as to have free trade with the Mother Country within a period of seven years.

Decline In Grain Receipts

Vancouver, Montreal and Quebec Ports Show Great Reduction

Ottawa.—A decline of 112,731,253 bushels of grain is indicated in the receipts at the ports of Vancouver, Montreal and Quebec for the current year ending Nov. 30, compared with the figures for the corresponding period last year. At the same time deliveries from these ports dropped 102,856,627 bushels.

Total receipts at these Canadian ports amounted this year to 150,266,157 bushels, compared with 267,997,410 bushels for the same period of 1928; deliveries amounted to 158,698,840 bushels as against 261,556,467.

Seeking New Air Record

John H. Mears Will Attempt To Beat Zeppelin's Time

Chicago.—John Henry Mears, of New York, speaking here announced plans for a new attempt at the record for circling the earth now held by the Graf Zeppelin. Mears and the late Charles G. Mears, held the world's circling record until the Graf's flight.

The new trip will be started next June, Mears said. The Pacific hop is to follow the path travelled by the Soviet fliers.

Work Being Slowed Up

London.—Rt. Hon. A. V. Alexander, first lord of the admiralty announced in the House of Commons that work on the naval base at Singapore will be slowed down as much as possible pending the result of the five-power naval conference.

BANKS TO TAKE ACTION TO EASE CREDIT SITUATION

Montreal.—Reassuring indication that in the opinion of the banks of Canada, deflation of stock values on the Canadian market has reached its logical bottom and that the banks are prepared to step in to the breach in the interests of stabilization was forthcoming when the leading banks, acting together, announced here that they would accept 15 per cent. on call loans to brokers on stocks selling below \$40, and 10 per share on issues below that price.

In taking this action to ease the credit position for the brokers the banks will be benefiting a large number of marginal clients, for brokers generally feel that this will enable them to reduce their marginal requirements and preclude the necessity in many cases of sending out further calls.

The moral effect of this construction action it is anticipated will be even greater in restoring confidence than the actual aid rendered, great as this was.

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted here by leading brokers and stock exchange officials as a step to stem the present tide of pessimistic dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

C. E. Abbs, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and of having a general reassuring effect."

It will have no effect, however, local opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

Fire Damages Seminary

Loss To Quebec Institution Estimated At Half A Million Dollars

Three Rivers, Que.—Fire swept through the oldest wing of St. Joseph's seminary, destroying that section of the institution which was erected in 1870 and was one of the best known classical institutions in the province. No lives were lost, although several of those caught in the building were taken out with difficulty. The damage was estimated at half a million dollars and the fire was the most destructive to strike this city in the 20 years. Numerous valuable documents and books were destroyed.

Honor Manitoba Citizen

Bronze Portrait Of Late Hon. Thos. Johnson To Be Unveiled In Iceland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Iceland, of the 1,000th anniversary of the "Althingi," the national parliament of that country.

The portrait will be presented by the Manitoba government in recognition of Mr. Johnson's contribution to the progress and development made by the large Icelandic population of the province.

Police Holidays Are Cancelled

Toronto.—All holidays for members of the Toronto police force have been cancelled; beats in all parts of the city shortened and additional men placed on duty as a result of the series of hold-ups which have occurred here in the past week, and the solution of the crime wave is no nearer tonight.

Awarded Nobel Prize

Stockholm.—Professor Owen R. Richardson, of King's College, London, England, was awarded the 1928 Nobel prize in physics. He is a fellow of the Royal Society and is known for his research work in the theory of electrons. The 1928 physics prize was awarded to the Duc De Broglie, of Paris.

2,400 People Converse With Ease Through a Small Lead Tube

Imagine the roar of 2,400 voices confined within the walls of one huge room!

What a babel of confusion if the people in that room should try to shout messages to each other! Yet, through a lead tube, only 2 1/4 inches in diameter, 2,400 people may converse at the same time with ease, without confusion and in strict privacy.

This lead tube (illustrated in section above) is the casing of a telephone cable manufactured in the Montreal plant of the Northern Electric Company, containing over 1,200 pairs of insulated wires, each pair connecting at one end with a telephone instrument and at the other a central exchange. In the large Canadian cities there are scores of such telephone cables.

Know Canada Contest

The Family Herald and Weekly Star, so well known as Canada's outstanding farm and home paper, is launching another of their Know Canada Contest, in which \$3000.00 are being given as prizes. The First Prize is \$1000.00.

Each week four pictures are published and readers are asked to decipher the Canadian post office scenes they represent. It is a most interesting pastime, combining a great deal of real amusement and entertainment with an opportunity of carrying off a very nice sum of money in prizes.

It is a contest that will interest every one of our readers and details of it can be had for the asking. A letter to the Family Herald & Weekly Star, Montreal, will bring you all the particulars and a sample copy of the paper too and of course it does not obligate you in any way.

Open Seasons for Game

Following are open seasons for game—
Ducks and Geese—Sept 16 to Dec. 14th.
Hungarian Partridge—Oct 1 to Nov. 30.
Prairie Chicken and Partridge—No open season.
Deer—Nov 1 to Dec 14
Otter, Nov. 1 to May 1.
Beaver, No Open Season.
Muskrat—Between North Saskatchewan and Tp. 91, March 15 to April 15
Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Ferry, Al's best friend. She and Ferry take the child which Al adores and sail for France. Al, completely broken by his tragic loss, disappears from Broadway and becomes a derelict. One day, as he wanders down a back street, he sees Grace Farrell on the opposite corner. He runs away and Grace hastens to Blackie Joe's club to tell him the news.

CHAPTER XXII.

"I just saw someone we both know," Grace began, with a tired, rather set little smile. "Al Stone."

"No?" Blackie put down his cigar. "Where?"

Briefly Grace related the circumstances of their encounter.

"So he ran, away from you, did he?" said Blackie, nodding thoughtfully. "I can understand that—as ashamed to meet his old friends. That always happens when a man begins to slip. And his clothes looked odd, didn't they? Well, well."

Suddenly Blackie's expression changed.

"Grace, are you still fond of him?" "I don't know," she answered frankly. "I was asking myself if like him if you mean only that. But if you mean love, well, you know, Blackie, love dies after a time. Or at least we pretend it dies, to protect ourselves. . . . I shall always consider Al one of my best and truest friends — I know that."

Grace's eyes were half-closed as she spoke, as if she feared the look

that memory might bring them. And controlled little smile set her lips.

"You told me once, Grace, that you'd never fall in love with anyone else."

"That's true—I haven't."

Blackie nodded. He knew that other men, some of them quite personable, had been attentive to Grace since Al left. She had gone to dinner with them, laughed and talked with them, but they seemed unable to make a serious impression on her. The reason was obvious; she had the dream of Al in between her and these later comers.

During the three years Grace had developed from a child into a woman. She was still slender and lovely, but there was a quiet dignity about her and a feeling of poise that she had acquired only recently. Blackie wondered what Al would think of her if he saw her closely now.

Then he returned to the subject of their missing friend. "You don't know any way we can find him?"

"How can we?" Grace made a gesture of despair. "Everyone has tried to find him and failed. But at least we do know he's in New York. That's something. I should imagine, from his clothes, that he's living in some poor quarter of the city."

Grace, following Blackie's idea, was filled with a sudden determination. Why not try to find Al? She just might be successful and, whether she loved him or not, he was her good friend. He was worth saving.

Grace set out on her journey to find Al the very next afternoon, when she was free from work. Her plan was simple—she simply walked the streets where she had seen him the day before, combing the neighborhood thoroughly. But at the end of the first day's search she hadn't caught a glimpse of him nor found a single clue. It was as if he knew she might try this very thing and so had made himself scarce in that particular neighborhood. Grace appeared at Blackie's in the evening tired out and disappointed, but not entirely discouraged.

The next day she tried again; for a week she pursued her quest with an indomitable spirit. But each day there was the same story to tell—no trace of Al. Finally Blackie said to her:

"You'd better give up that hunt. This town is too big—you simply can't comb it properly. Al would be able to dodge and keep out of sight if one hundred detectives were after him."

Grace nodded. "I guess you're right. Blackie—I'm just wasting my time. . . . Still, I'm glad I tried; I never would have felt satisfied until I made the effort—after seeing him that one time."

Meanwhile, Al continued his wandering life, never dreaming that Grace was trying to find him. If he had known it, he would have stayed in his room all day to avoid being found. But instead he pursued his casual way, loitering on the docks, eating at the cheapest lunch counters.

After his disappearance he had read the papers carefully for news of Molly and Junior. One day a new dispatch from Paris caught his eye:

"Mrs. Al Stone, known to the Broadway stage as Molly Winton, is one of a number of American women who have fled suit for divorce in the French courts recently. Mrs. Stone alleges extreme cruelty and assertion. It is understood that Mr. Stone, whose whereabouts are unknown, will not fight the case."

"Among the gossip of the boulevards it is said that as soon as Mrs. Stone's divorce is granted, she will marry John Ferry, well known bon vivant of Broadway. The couple are seen together a great deal at the Riv-

iera resorts, where Mrs. Stone's beauty and chic attire have attracted a great deal of favorable attention. On the beach she is frequently accompanied by her baby son, Junior Stone."

Meanwhile Al Stone's old friends from Broadway are wondering what has become of the former successful song writer. At one time it was said that he, too, had come to France, but this was denied by those in the know."

Al had dropped the paper with a bitter smile. He Molly was charging him with cruelty and desertion! The terrible irony of the accusations dazed him for a moment. And Molly was preparing to marry Ferry!

Oh, well, it didn't matter; nothing mattered any more! Let her make any charges she wished to get her freedom. Yet the picture of Junior, on the Riviera beach with his mother, remained with Al for a few days. He wondered if Junior still chattered and laughed as he had in the old days and whether he remembered his daddy?

Al looked down at his shabby clothes. He certainly wouldn't want Junior to see him as he appeared now—the personification of failure. No, Junior must never know what had become of his daddy. Al's pride was strong enough for him to make that decision.

After that Al still studied the newspapers for any news concerning his family, but nothing else appeared. Nor did Molly send any letters. Al had left word that his mail was to be forwarded care of an obscure East Side bank, where he had placed his money. But every time he called at the bank for additional money, and asked for letters, he found none from Molly. Letters from Marcus and all his old Broadway friends drifted in, but these he quickly tore up without opening them.

Recently he had ceased to read the papers or to ask for letters. His interest in life was dwindling, narrowing down to the smallest circle. Even this interest was passive rather than active—he did not really care about sleeping draughts, outlying wanderings through the streets. It was done simply through habit—his last hold on life. If that passed from him one of these days it meant dark oblivion for the man who had once been light-hearted Al Stone.

"Seeing Grace on the street had proved a terribly disturbing shock to him. In running away he had followed his first impulse—but afterward his conscience had bothered him. He knew Grace's feelings would be hurt. After all, Grace had been one of his best pals back in the old days at Blackie Joe's. He remembered her as she had looked then—a startled fawn of a child. She had certainly developed into a stunning girl."

(To Be Continued.)

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectic Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far ahead enough to attest its excellence, for in all these countries it is on sale and in demand.

Has Interesting History

Small Cinema Was Built For Use Of Royal Family

Across the way from the Royal riding school in the labyrinth of streets between Buckingham Palace-Road and Victoria Station is a small and comparatively new cinema with an interesting history. It was built by Mr. E. C. Lescallier, a cousin of Lord Lescallier, for the use of members of the Royal Family. The cinema is on the site of an old ecclesiastical building, and construction of a subterranean passage was commenced so that the cinema would be directly accessible from Buckingham Palace, but that idea was abandoned.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action."

Two hundred silver foxes, valued at \$70,000, were recently shot from Prince Edward Island fox ranches, the chief centre of the fox farming industry in Canada, to Sweden.

Use Minard's Liniment in the Stables.

Newest Use For Airplane

Traced Blackmailer By Following Carrier Pigeon He Sent Out

Aerial photography recently thwarted an attempt at blackmail, in Germany. A wealthy man received a package containing a carrier pigeon and a letter, which stated that if he did not forward a large sum of money by the pigeon within a given time, he would meet violent death. The pigeon was released and followed by an airplane, and an aerial photograph taken of the place where the bird landed. The house of the offender was easily identified. He was an unemployed miner, from one of the intended victim's mines.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, or even a watery discharge from the nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the house always feel safe. In fact they are like having a doctor in the house. They are a gentle but most effective cathartic that sweetens the stomach and regulates the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all—harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Manitoba Fisheries

The Manitoba Co-operative Fisheries, Ltd., an organization of 400 fishermen, on Lake Winnipeg, began operation on September 1, 1928. In the first season's operations which ended on April 30, 1929, this new co-operative organization handled 4,000,000 pounds of fish, out of a total catch of 14,500,000 pounds in Lake Winnipeg.

For a vermicide an excellent preparation is Mother Graves' Worm Expeller. It has saved the lives of countless children.

A Chicken Cleaning Machine

A new machine has been developed which draws the entrails out of a chicken, cuts off the head and the feet and releases the cleaned carcass to an attendant. At a demonstration of this machine before the poultry trades in New York, only six seconds were required for the complete operation. The machine is adjustable for chickens weighing from two to seven pounds; special machines will have to be built for smaller birds as well as for turkeys and geese.

Two carloads of "McIntosh Red" apples were shipped recently from the Okanagan Valley, British Columbia, to South Africa, and one carload to Sweden.

Little Helps For This Week

"Blessed is the man whom Thou chastenest, O Lord, and teachest him out of Thy law."—Psalm xciv. 12.

Do not cheat thy heart, and tell her, "Grief will pass away; Hope for fairer things tomorrow, And forget today."

Tell her, if you will, that sorrow, Need not come in vain; Tell her that the lessons taught her Far outweighs the pain.

—Adelaide Anne Procter.

It would be a poor result of all our anguish and our wrestling, if we won nothing but our old selves at the end of it; if we could return to the same blind loves, the same self-confident human, the same light thoughts of human suffering, the same frivolous gossip over blighted human lives, the same feeble sense of the Unknown toward which we have sent forth irrepressible cries in our loneliness. Let us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Eliot.

Abbreviation Simpler

"S.U.P. 36" or para-benzoyl-para-amino-benzoyl-amino paratol 3:6 sodium sulphate is the latest treatment for influenza, described by Dr. Raymond M. Pearce, in the British Medical Journal.

No matter how deep-rooted the corn may be, it must yield to Holway's Corn Remover if used as directed.

Approximately 2,000,000 acres in new agricultural land have been "broken" in the past three years in those parts of western Canada served by the Canadian National Railway, according to Dr. W. J. Black, the Company's Director of Colonization.

Castarrh

Heat and Inflammation. Excellent for colds in head, throat and chest.

A British archaeologist states that a town of 100,000 inhabitants was a rarity in the Roman Empire, and that Rome probably had about half a million people.

An Ailing CHILD

Are you prepared to render first aid and quick comfort; the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine. Castoria is as large as the smallest infant; doctors will tell you so.

You can tell from the recipe on the wrapper how to use it, and how good for little systems. But continue with Castoria until a child is grown.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old but who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—Mrs. Milton McMullen, Vassar, Ontario.

Lydia E. Pinkham's Vegetable Compound

At the End of a Perfect Night

A birthday party took place Thursday night last, at the home of an old-time farmer of the Edmonton Beach district, the birthday being celebrated in true bohemian fashion. At the close of the celebration, early Friday morning, when the guests were leaving for their homes, an altercation took place between two of the male participants over the alleged purloining of a bottle of wine. Hot words led to cold blows, and these, in their turn, being followed by one of the contestants drawing a knife and stabbing the other in the left side, just below the heart.

Dr. Walton and Corp. Moses went out to the scene of the trouble, in response to a hurried call. The injured man, Barney Miller, was taken to the Misericordia hospital, in Edmonton.

Following an investigation by the Police, Philip Fischer was apprehended and held as the alleged assailant. The prisoner was given a preliminary hearing, on Friday, on the charge of "doing grievous bodily harm," and the case was adjourned for eight days. Bail being refused, following the hearing, Fischer was taken to Fort Saskatchewan by Corp. Moses.

Reports from the hospital say that the injured man is resting easily, and, altho the outcome is not yet a certainty there is a good chance of ultimate recovery.

Mr. Miller is an old-time resident of the Beach district and is well thought of by his neighbors and friends. Mr. Fischer has been on the Firsiene farm, in Rosenthal district, and has been employed by Pete Baron.

United Church Notes.

On Sunday last the subject of the sermon was: "What is that to thee? Follow thou Me!"

The Ladies Aid is busy preparing for the annual bazaar to be held shortly.

Next Sunday evening, under the auspices of the Sunday school, a special cantata will be given. This will be a very special event, and should attract a large congregation.

Railway Time Table

Going East—Mon., Wed., Fri. at 7.01; every morning at 8.25.

Mr and Mrs Cooper, Duffield, were Saturday visitors in Stony.

The Armbruster Co. has in course of erection a new residence, on the property west of Pete Mashtaler's.

The local W. L. is holding a whist drive tonight in Miller's Hall.

Subscribers not receiving their local paper regular, will kindly call at The Sun office and get a copy.

Mr. Jac Miller, Wembley, is in town.

GIRL WANTED, at Christie's Restaurant.

The pupils at the United Church Sunday school are preparing a Cantata, to be presented in the course of a few weeks.

The change in the local train service became effective on Sunday last, the change affecting the midnight and both morning trains from the West. Those interested are referred to the time table in another column.

The delegates from Inga M. D. to the rural municipalities convention, which meets in Edmonton this week are: Messrs F. J. Francey and M. McKinlay.

GIRL WANTED, at Christie's Restaurant.

The St. Matthew Ladies' Aid are holding their annual bazar on Sat. Dec. 7, in St. Matthew Schoolhouse No. 2.

Attention is drawn to the new prices on the Ford cars, printed in another column.

The Moose Lodge held its bi-monthly session Monday night, in the Town Hall, when several new members were initiated. Mr. Ingram, Grand Regent, who organized the lodge here, leaves Stony this week, to organize a lodge in a new field.

At the local Court on Tuesday the magistrate's time was taken up with the Yerko Capp case. Among the other cases to come up at next Tuesday's session is that of Mr. Cicciarelli. This is a V. & H. T. A. case, which has had several adjournments, but will probably be concluded Tuesday.

Xmas school concerts are already being billed. Several enterprising teachers have already set dates for the pupils' entertainments.

GIRL WANTED, at Christie's Restaurant.

Home for Christmas

Mulled ale, roasted chestnuts, real English plum pudding, Tom Smith's crackers, the "waits," the piping treble of young carol singers, the joyous Christmas peal of the Bells of St. Martin's, poultry-ashops with their rows of be-ribboned turkeys, the home-y foggy atmosphere of England on a slightly frosty Christmas morning—and the myriad other recollections of Dickens' conception of Christmas at home are the beacons that guide many Britishers homeward in late November and early December.

From prairie farmstead, British Columbia fruit farm, the peach orchards of the Niagara Peninsula, the apple districts of Northumberland and Durham, and from the lovely country of Evangeline a steady stream heads towards Saint John, N.B. whence the Christmas ships sail.

This year five Canadian Pacific ships have been detailed for the Christmas movement—"Minne-dosa" November 26, "Duchess of Atholl" Dec. 6, "Montclair" Dec. 12, "Duchess of Richmond" Dec. 14, and "Duchess of York" Dec. 18th. The last four sail from Saint John, but the "Minnedosa" as usual, closes the Montreal season.

A large number of Canadians from the British Isles and European countries are planning on travelling to their former homes for Christmas, and already the Canadian Pacific is arranging special train services from inland points to the Christmas ships.

Calendar.

NOVEMBER—
21—Women's Institute's Whist Drive.
22—Bazar and Dance at Holborn Hall.
29—Dance at new Community hall 6 miles north of Stony.
DECEMBER—
6—Inge Councillors meet.
7—The St. Matthew's Ladies Aid Bazar.
19—School concert at Holborn.
20—School concert at Warden.
20—Concert at Governor School.
